

AGENDA - BRWAG Meeting

October 20<sup>th</sup>, 2009

930 - 12noon

LOCATION \*\*\*Town of Notre Dame de Lourdes Board Room

1. Discussion about partnership with the Pembina Valley Water Coop (PVWC) and the PVWC commitment of \$5,000 towards BRWAG water quality improvements. They have agreed to commit \$5,000 per year for 5 years. There is a suggestion that this be applied to RM Dufferin and Grey water retention projects if they will result in water quality improvements. Piggybacking on the Farm plan process as originally conceived should be considered for the future but there is not enough time to coordinate with the CD's for this year. Another option is to consider piggy backing on the MHHC CA program or just hold off until next year. Need to also apply for Water Stewardship funding and Lake Winnipeg Stewardship Board Funding.
2. 10am - Presentation by MAFRI Area Manager Shane Dobson on New Environmental Farm Plan Program / Discussion on how to piggyback to meet BRWAG Goals
3. 11am - Presentation by Water Stewardship's Jennifer Havelock on Water Quality in Boyne River
