Riparian Fencing Program Terms & Conditions

Objective:

- To improve water quality, by preventing elimination of wastes in the water, and by decreasing the inflow of wastes and eroded soils.
- To stabilize shorelines by reducing trampling, in order to extend the useful life of dugouts and to protect natural shoreline ecosystems.
- To provide fenced waterfowl nesting habitat adjacent to water bodies.
- To reduce nutrient levels and livestock borne bacteria in our water systems.

Eligibility:

- Land must be within the La Salle Redboine Conservation District;
- The water body must normally be used for watering of livestock;
- Livestock must be excluded from directly drinking from water source. This program is not designed to create another paddock for a rotational grazing system. Periodic grazing of riparian corridor will be granted only by agreement between the landowner and the Conservation District.

Roles and Responsibilities:

The Applicant Shall:

- Request assistance by the proper application which is to be received at the Conservation District office;
- Sign consent of entry including any agreed upon or special conditions;
- Provide access for inspection or evaluation by the Board at any reasonable time;
- Allow District to place signage at project site for CD contribution to project; signage removal must be approved by the Conservation District prior to removal; and
- Indemnify and save harmless the District from any and all actions, claims, suits, damages, injuries, or other loss no matter howsoever arising as a result of the construction, operation or maintenance of the project.

The CD Shall:

- Provide funding for fencing materials;
- Provide technical assistance;

Project Funding/Cost-Sharing/Incentives:

Projects will be funded 70% by LSRBCD to a maximum of \$2,000.
